

Oval pneumatic sleeves with Carbon fibre

Compressed air activation
Without hose connector

Single and double exhaust pipes on
fire engines, rescue vehicles etc.

The oval sleeve with Carbon fibre is made for compressed air activation, and is ideal for exhaust gas extraction from fire engines, rescue vehicles and vehicle inspection garages etc.

The sleeve can be used for single and double exhaust pipes.

The most common sizes are 150/80 mm and 200/100 mm but other diameters are available upon request.

Carbon fibre lining inside and outside reduces friction and resists extra high gas temperatures.

Your company name and logo can be stamped into the sleeve without extra costs.

150/80

200/100

150/80 1 side

200/100 2 sides

PRODUCT NO.	SLEEVE SIZE (MM)	SLEEVE EXPANSION	SLEEVE LINING	EXHAUST PIPE SIZE	WEIGHT (GRAM)	MAX. TEMPERATURE
227125	150/80	1 side	Carbon in+out	Ø20 / Ø100	680	+400°C
228125	150/80	2 sides	Carbon in+out	Ø10 / Ø100	680	+400°C
