

## Circular pneumatic nozzles with hose connector

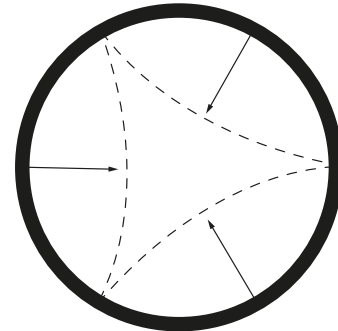

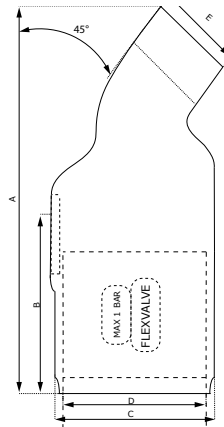

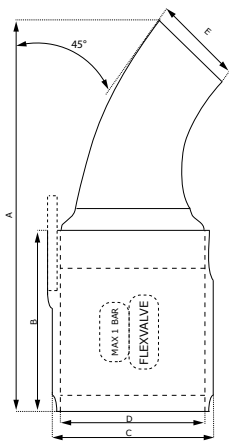

Compressed air activation  
With hose connector

Single exhaust pipes on personal cars,  
busses and emergency vehicles etc.

The circular nozzle is made for compressed air activation, and it has a standard 45° bend hose connector made of metal or moulded rubber.

The most common sizes are Ø100, Ø125 and Ø160 but other diameters e.g. Ø200 and Ø250 are available upon request.

Your company name and logo can be stamped into the nozzle without extra costs.

All sleeves close from  
3 sides in a triangle

With metal hose connector      With moulded rubber hose connector

### With metal hose connector
